

Business calls for a deal on Trade Facilitation in Bali

JOINT STATEMENT BY BUSINESS ASSOCIATIONS WORLDWIDE

Date: 21 November 2013

A few days ahead of the WTO Ministerial Conference in Bali, the undersigned organisations call upon the WTO members to finalise the deal on Trade Facilitation.

The simplification and harmonisation of customs procedures worldwide is a vital building block for economic growth and development. Trade Facilitation is the simplest, most regulatory efficient way to recover economic performance and generate wealth creation for the good of all societies, regardless of location or region.

In times of immense challenges, economic operators worldwide are waiting anxiously for negotiators to show leadership and demonstrate the ability of the World Trade Organisation to really deliver at the upcoming WTO Ministerial Conference in Bali.

The undersigned bodies believe the consensus-driven negotiations and the progress made in the last weeks on the Draft Agreement on Trade Facilitation now have sufficient shape to be concluded and implemented, for the good of all economies. We call on all developed and emerging economies to take significant step to finalise the deal with the least possible derogations or transition periods and commit to help poorer countries in achieving their customs reforms.

We believe that such an early agreement to implement the Trade Facilitation Agreement would offer a key and significant boost for the global trading community during these critical economic times and show the WTO has the determination to deliver.
